

Converting phone or pc storage as cloud storage in a simple way !

29th June 2023

OVERVIEW

This solution eliminates the need to pay for cloud service providers. It allows you to transform your phone's storage into cloud storage, enabling you to access your mobile storage from a computer or any device and vice versa. This accessibility is available from anywhere.

GOALS

To convert phone or pc storage as cloud storage in a simple way !

Detailed

With this application we can simplify the process of converting our phone or PC storage into cloud storage! Now we can easily transform our device's storage into a cloud-like solution. This enables seamless access to our files and data from any location, just like traditional cloud storage. Enjoy the convenience of managing and retrieving our files from anywhere, without relying on external cloud service providers.

Where can be implemented ?

This approach can be implemented anywhere . There is no limits !
